To whom it may Concern

It is with great pleasure that I have the opportunity to write a recommendation to a company that was hired by the McKinlay Shire Community group-Combined Sporting Association.

Our community group was successful with a grant application to build a skate park, without great knowledge in regards to contracts, supervision and commitment dates, it was a relief to have such professional organisation like Services Inc to do this for us.

During there short stay in Julia Creek, they managed to finish the job, despite interruptions with rain, plus in their own time, help us finish putting up a shade strucuture. Their prompt responses with supplying quotes, receipts, invoices was overwhelming .It made a big difference with the Grant equitals being done on time.

I have been on Council now for 8 years and have seen many jobs go up, come down or be rebuilt and again I would say I have never come across a more professional organisation, in regards to reliability, hardworking professionalism and a great sense of humour to put it mildly.

I wish them all the success with any tender they may submit, and please do not hesitate if you need more info.

Kind Regards

Margie Ryder
Cr McKinlay Shire Council.

A handwritten signature in blue ink, appearing to read "Margie Ryder".
